

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Group Art 3641
Examiner: Behrend

Applicant: Waisman
Serial No: 09/887,693
Filed: 09/18/2001
Filed for: Deuterium Heat Generator

THE HONORABLE COMMISSIONER OF PATENTS AND TRADEMARKS
Washington D.C.

May 15, 2003
Santa Ana, CA 92705

Dear Sir:

In response to the office action mailed 05/02/03, we submit the following amendments and request for reconsideration.

Amended Claims (See page 2).

Elections in response to the Examiner's stated requirements in Items 3 and 4:

We elect sub-item A: "Wherein the host metal is made in the form of a tube by a bulk technique"

We elect sub-item X: "The embodiment as set forth in Fig. 1"

Remarks

By deleting claims for the "sealed reactor", for the "scanning reactor" and for the "method", we are now making claims for only a single invention.

By replacing Claim 1 with Claim 28 we have moved part of our creativity from the prolog to the body of the claim.

Respectfully submitted,

Frank C. Price
Reg. No: 29,841
